

1. Fix the two programs. Check in your answers for a trip to the snack bin.
2. When you get home, try the rest of the debugging problems here:

<https://studio.code.org/s/course1/stage/5/puzzle/1>

Problem #1: Fix the bug in the code that follows the orange “when run” block:

Lesson 5: Maze: Debugging 4

Instructions: Run through these blocks and fix them! I think I might be going in the wrong direction.

Workspace: 4 / 4 blocks

Blocks:

- when run
- move 1 step right
- move 1 step right
- move 1 step up

Run Step

Problem #2: Fix the bug in the code that follows the orange “when run” block:

Lesson 5: Maze: Debugging 5

Instructions: Debug this level by rearranging and changing blocks to get me to the pig!

Workspace: 8 / 7 blocks

Blocks:

- when run
- move 1 step right
- move 1 step right
- move 1 step down
- move 1 step down
- move 1 step down
- move 1 step down
- move 1 step right

Run Step
